Our Services

Water Hygiene Maintenance

Legionella Risk Assessment

Water Treatment

Water Sampling

Disinfection & Chlorination

Commissioning

Case Study: One Nine Elms, London

Client: Designer Group and Borough Engineering

Main Contractor: Multiplex

Project: Dubbed the tallest residential towers in Europe, the project includes a 56 storey City Tower and a separate 42 storey River Tower. The towers are linked together with a glazed bridge that provides access to the City Tower facilities.

Services: Water Treatment, Commissioning, Disinfection, Close Monitoring, Quality Control

Case Study: National Portrait Gallery, London

Client: Gilbert Ash

Main Contractor: Gilbert Ash

Project: The RIBA London and RIBA National Award-winning project for 2024, this £30m development involved the extensive refurbishment of 40 galleries, the creation of a new visitor entrance and public forecourt and the addition of a learning centre, new shop, and enhanced food facilities.

Services: Water Treatment, Commissioning, Disinfection

Case Study: Wood Wharf, London

Client: Borough Engineering

Main Contractor: Canary Wharf Group

Project: Wood Wharf is a new urban district in London's Canary Wharf cluster. 10 Park Drive and 10 George Street are the phases MWS completed the work on, consisting of two high-rise buildings, a 130m tall super structure and 6 storey podium building.

Services: Water Treatment, Commissioning, Tertiary Apartment Fit-Out, Tank Cleaning, Disinfection, Close Monitoring

Case Study: Turton High School, Bolton

Client: Turton High School

Project: Following the water treatment and commissioning services MWS delivered, the school sought a proactive maintenance solution to protect the longevity of its new heating system. MWS developed a tailored maintenance approach ensuring continued system performance, regulatory compliance, and long-term value without compromising financial constraints.

Services: Legionella Risk Assessment, Temperature Monitoring, Monthly Swimming Pool Checks, Quarterly Sampling of Closed Loop LTHW Systems & Chemical Adjustments, 6 Monthly TMV Servicing, Annual Tank Cleaning & Disinfection, Water Treatment, Commissioning
